Librarian's Report

The Jackson Public Library, during July and August, has been open Mondays, Wednesdays and Fridays, 2-4 P.M. During the other months it has been open from 2-4 P.M. on Thursdays. There has been a circulation of 1430 books and magazines throughout the year.

With the retirement of Mr. Manchester as Librarian, the Library has been served by Mrs. Alice Pendleton, Mrs. Emily Miller, Mrs. Maureen Brown and Mrs. Alice Mursell.

As in the past, the Bookmobile from the State Library Extension Service continues to call approximately every two months with fiction, non-fiction and children's books.

This year has seen a thorough weeding of old and non-circulating books from the Library, and a good start has been made in cataloging the remaining volumes, thanks to Mrs. Jean Garland, Librarian of the Bartlett Library.

The Library has received gifts of money from summer visitors and from the Jackson Community Association. Also it has received books and magazines from Mrs. Rachel Doucette and Mrs. Marjorie March among others. We are most grateful for all of these. In all, the Library has added 155 new volumes through purchase and gifts.

Respectfully submitted,

Alice Mursell, Librarian

The Trustees would like to take this means of thanking Mrs. Alice Mursell for taking over as Librarian and for her gifts of a Typewriter and many books.

Report of Forest Fire Wardens

During the past year New Hampshire faced the greatest forest fire threat to its woodlands in more than sixty years. The continued drought brought home to our citizens, as never before, the potential threat of destructive fires to their beautiful and valuable forests, homes and livelihood. In true American tradition of meeting a common threat by volunteer effort, this fire danger was minimized by active prevention, patrol and a relinquishing of personal rights for the common good. It was the greatest demonstration of public cooperation ever experienced by those responsible for local and state fire control. The ready forces of volunteer fire services kept the losses low. For their effort and public response the general fire service expresses its heartfelt thanks for a job well done.

Prevention, however, is not just an activity for the bad fire years. It must be practiced until it becomes a part of our public conscience - - a habit. Just plain carelessness with fires causes too many of our fires.

The following practices and suggestions will help:

1. Always have a permit for outdoor burning and burn within the terms of the permit and in a safe place. Burn late in the afternoon when the wind is down or on rainy or damp days. Check your fire and if winds develop extinguish it promptly.
2. Carry your rubbish to the public dump - it's safer. A neglected back yard incinerator causes many fires.
3. Never discard lighted cigarette or match. Make this a year round habit regardless of the safety of your surroundings.
4. Children caused fires are now a major concern. Keep matches away from them and teach them to respect fire and not make it a subject of play.

Let's all join "Smokey the Bear" and "Keep New Hampshire Green" and growing in 1964.

Airport Authority

Eastern Slope Regional Airport made its greatest step forward in 1963 with the completion of a hangar and maintenance building, and the engagement of a full time operator, Dana L. Smith, formerly of Derry, N.H. Mr. Smith, with his wife and daughter, have made their home at the airport since midsummer of 1963, and use of the airport is expected steadily to increase as time goes by and more and more pilots are aware of the expanded services and facilities now available.

There are now four aircraft based permanently at the airport, and there will be five by the summer of 1964, a figure which the Federal Aviation Agency did not predict would be reached for several more years. Even in winter months traffic has averaged almost three transient planes per day and when one considers that this includes bad weather days when no planes can fly, it will be seen that use is already picking up. On some Sundays the operator has had as many as ten planes on the ground at one time.

Services now available at the airport for its users include air taxi service and flight instruction, by appointment; aviation gas sales, both 80 and 100 octane; public lobby and restroom facilities; Unicom radio, manned full time for communication with planes arriving and departing; hangar storage for aircraft; aircraft maintenance, including major repairs and periodic inspection.

The presence of a full time operator has enabled the Authority to reduce its budget for 1964, resulting in somewhat smaller requests for appropriations from the supporting towns. It is not expected that the airport will be self-supporting in the near future, or possibly ever, but it already has had a beneficial economic effect on the area as a public facility for the travelling public. A number of seasonal homes have been purchased in surrounding towns by flyers who use the airport, and more are known to be seeking home and cottage sites. If the present trend continues, in only a few years the taxes on properties in this area owned and built by airport patrons will exceed the Authority's expense in maintaining the airport. With both summer and winter recreational attractions this type of use should show outstanding growth.

Since the airport is lighted for night use, and plowed for use all winter, it is an attractive site for light branch industries. Now that operating problems have been solved, the Directors intend to devote more time and effort to attracting an industry to the airport. Rentals from land to industry will reduce the annual money needs of the Authority, will increase use of the airport, and provide much needed jobs for our citizens.

All citizens are urged to visit the airport and see its facilities. Mr. and Mrs. Smith welcome your interest and will be happy to show you the airport and tell you of plans for the future. This cooperative venture of the towns in our area, both in Maine and New Hampshire, deserve your continued support and attention.
